Hand Press Double AUTOMATIC IMPULSE SEALER

FEATURES

- Great for sealing coffee bags!
- Hand press operation
- No warm-up time
- Suited for sealing thicker materials
- Built-in automatic release once seal cycle complete
- Timer settings for both seal and congeal
- All metal construction

WN-1510HT is a unique hand press automatic double impulse sealer geared for sealing thicker materials such as foil gusseted bags (i.e. coffee bags). The WN-1510HT can seal materials up to 6" wide and 20mil total thickness producing a 10mm wide seal. Equipped with a built-in automatic release once the seal cycle is complete, this sealer will ensure a consistent seal every time.

Manufacturer's replacement kit includes two heating elements.

Easy to Operate: Set the sealing and congealing timer. Insert material between the bars and press down to initiate the seal cycle. Once the cycle is complete, the upper jaw will automatically release.
